

Class Information

Water bottles and Snack:

In Reception all children are offered a fruit snack and drink of milk during the morning session. All children have access to their water bottles throughout the day. Water bottles must contain water- no juice please! Children are able to bring a snack from home to eat in the afternoon. Please try to make sure this is a healthy snack.

PE:

Our PE Days are Tuesday and Friday. All children need to come to school in their PE kits on these days. We also use our outdoor area each day in Reception with lots of opportunity for Physical Development.

Reading:

In school we have a range of reading opportunities. We read together as a class, in small groups and individually. At home, we ask for your support to help your child practice their reading. You can also help your child by exposing them to a range of different reading experiences. You might share a story, look at a magazine or newspaper together.

In class, children will read individually each week with an adult. This may happen at different points in the week so please make sure reading books come into school each day. Books will be changed each Monday. Children will also take part in Guided Reading as a group to develop word reading and comprehension skills.

School Library Day is Wednesday: Please ensure your child returns their book so they can bring home a new one.
